

Rising Cost Cause Increase In Student Fees

Pending approval from the State Board of Trustees of Universities and Colleges, Salisbury State students can expect an increase in college expenses effective Fall, 1977, according to Gordon H. Howatt, SSC director of business and financial affairs.

There were several factors which made the increase necessary. First, Howatt cited the problem of inflationary costs, including the tremendous increase in the cost of utilities. He also pointed out that the Maryland legislature has mandated pay increases for college-employed personnel,

such as housekeepers and food service employees, which has also necessitated the increased fees.

For total tuition and fees, the expenses for Maryland commuters will rise from \$690 from the 1976-77 fiscal year, to \$705 during the 1977-78 fiscal year, whereas the out-of-state commuter's fee will increase from \$1390 to \$1605. The Maryland resident commuter, then, can expect a \$15 increase, and the out-of-state commuter can expect a \$215 raise in fees.

Expenses for the on-campus student, for tuition, fees, room and board, will in-

crease from \$1880 during the 1976-77 fiscal year to approximately \$2015 during the 1977-78 fiscal year for Maryland residents, and from \$2580 to approximately \$2915 during the 1977-78 fiscal year for the out-of-state resident. The Maryland resident will experience a \$135 increase, whereas the out-of-state resident can expect a \$335 increase during the 1977-78 fiscal year.

Breaking down these figures, out-of-state tuition will increase \$200 per year, as a result of the mandate by the Board of Trustees two years ago. Room charges

for the full-time student will increase \$60 per year in Choptank, Chester, Nanticoke, Pocomoke, and Wicomico Halls, and will increase \$70 per year for the Chesapeake complex. According to Howatt, Chesapeake rates are higher due to the fact that the complex is less efficient to maintain.

Board increases for full-time students will rise \$60 per year during the 1977-78 fiscal year for the seven-day meal plan, and \$70 per year for the five-day plan. The reason for the added increase in the five-day plan is that there is greater participation in the five-day plan than in the seven-day plan.

Full-time student fees will increase from \$30 in the 1976-77 fiscal year to \$35 during the 1977-78 fiscal year for the Student Activities Fee, and the College Center Fee will increase from \$30 to \$40 during the 1977-78 fiscal year. Howatt pointed out that the College Center Fee will cover operation costs for the new college center.

Presently, increased rates for part-time students are still under consideration. "Some modification of part-time tuition rates is expected for out-of-state students," said Howatt.

The part-time student can expect to pay a \$5 registration fee for the Student Activities Fee. Also, a \$5 increase in the College Center Fee is expected.

The current 1976-77 college expenses have been in effect for two years, Howatt reported, although he had hoped they would be able to hold the line on them for three years.

SGA Passes \$5 Fee Raise

The SGA voted by acclamation to approve a proposal to raise the student Activity Fee \$5 next year. SGA President Tim Ragan said the proposal passed unanimously.

A special meeting was held last Thursday to bring the proposal before the students. Any full-time student who attended was allowed to vote.

"There were about 50 people there besides the Executive Council," Ragan said, "And there was really no opposition to the increase."

He said most of the students attending wanted to know what the extra money would be used for, but were not really opposed to it.

The 1976-77 SGA received over \$19,000 in additional funds left over from the year before. This money was allocated along with \$84,000 raised by the activity fee.

"We actually had \$104,000 to work with this year because of those additional funds," Ragan said. "Since we won't have any money left this year, next year's SGA would have only \$84,000 to work with."

Three Top SGA Officers Run Again, Unopposed, In Elections To Begin Today

By Pat Bailey

Voting will be held today and tomorrow for the 1977-78 Student Government Association elections. Today polling areas will be open from 10 a.m.-5 p.m. The polling areas are at the mailboxes in the co-ed dorms, in the main lobbies in the traditional dorms, and in the front lobby of Holloway Hall for commuters. Tomorrow

Running for the office of president is incumbent Tim Ragan. "I am a little disappointed in the lack of nominations for the positions especially the executive council," stated Ragan. "However, good and qualified people are running for the SGA positions. If the Annual Report had come out on time I believe this would have stimulated a little more interest."

Running for the office of vice-president is Dave Bollinger who is also unopposed. "The job of vice-president is not only the job of being a heartbeat away from the presidency, but it is to help and assist the president and to do whatever duty he may delegate," said Bollinger. "The office is what the president makes it and knowing Tim I'll be busy."

cert and spring normal," stated Pierce.

Incumbent Joe Norton is running for the position of Communications Advisory Board chairman. Norton was unavailable for comment. Competing for Rules Committee Chairman are Barb Wagner and Toni Zei. Margie Webb and Bob Storer will be going against each other for the position of student representative to the Board of Visitors.

Tim Ragan

the polls will be open 10 a.m.-4 p.m. for commuters and residents at the polling area in Holloway Hall only. Residents voting today must vote in their own dorms as their names will be checked off on a dorm roster.

Lynn Campbell

Running for the position of treasurer is another incumbent, Lynn Campbell. "I think the SGA did a good job this past year and I hope we do a better job next year. I hope more people will become involved next year," said Campbell.

Lesli Gould and Brenda Townsend will be vying for the office of secretary. Townsend said, "I think I am qualified for the job since I have worked as assistant secretary to the SGA for one semester." Gould had no comment.

Running for the position of CCPB chairman is Sherrie Pierce. Pierce feels that the SGA has bettered itself by looking out for the welfare of the students and promoting school spirit. "The SGA working with the CCPB has helped better our programs such as the upcoming con-

Lesli Gould

The position of Academic Affairs Chairman will be filled by either incumbent Jerry Fields or Barbara Adams. "I feel that there is a stronger need for better

Religious Freedom?

No one has to remind the students at SSC that there are no holidays here—we all know that. No matter what your political bent, when you choose to come to SSC you know you won't get off for Washington's or Lincoln's birthday or for Martin Luther King day. You won't even get off for election day. Whatever your religious views, when you come here you know you're not going to get any time off for Easter (somebody, not part of the College administration, planned well and made sure it always fell on Sunday; otherwise we'd probably have classes that day).

So there are no holidays, or holy days, that SSC students get time off. We live with it.

But there is such a thing as courtesy, and the right to practice one's religion without fear of harassment. Whatever happened to that?

Good Friday is a very special holy day for many Christian people, particularly those practicing the Catholic religion. And many people have religious obligations which require their time on that day. They never ask for time off for that (no one else gets it, so why should they?).

But we're sure a little courtesy would be greatly appreciated.

Many teachers here gave exams on Good Friday. Whether this was a ploy to keep up attendance on the Friday before Easter, we don't know, but it shows an incredible lack of respect, and understanding, on the part of many SSC faculty members.

As we said, no one expected time off for Good Friday. Those who had religious obligations that day all knew they would miss classes and have to make up whatever work was done. But to be hit with missing an exam is a little out of line, in our opinion.

Missing an exam, and having to take a make-up (which is often much harder than the first test) constitutes a penalty for missing class. And no one should be penalized for practicing their religion. The United States Constitution guarantees it. At least that's what we've always been taught.

And what of the people who stayed and went to class, and took their exams, and went against the dictates of their religion? Is that what college is all about? We don't think so. When it comes to the point where a student has to sell out his religious principles to get an education, then something is definitely wrong.

Student Indifference

SGA elections begin today. So what?

The incumbent SGA president is running again, unopposed. The incumbent SGA treasurer is running again, unopposed. The incumbent Communications Advisory Board chairman is running again, unopposed. The incumbent Board of Visitors member is running for vice-president (nothing like having new faces in the student government).

One person is running for College Center Program Board chairman. Two people will run for secretary and three for Academic Affairs chairman (one of whom is the incumbent chairman).

If it was funny, it could be called a joke.

No one expected a stampede of nominations—student apathy has hit an all-time high at SSC. CCPB activities have the lowest attendance they've ever had. At SGA General Board meetings it is often hard, and sometimes impossible to get a quorum together. Almost every student organization is hurting for people.

No, no one expected to see multitudes turn out to run for SGA posts. But no one expected what we are getting either.

In essence what we're getting is a re-run of what we got this year. So let's look at what that was.

The SGA ran as efficiently as it has ever run. Things are always more efficient when a small group runs them. Money was systematically allocated and systematically budgeted. There were none of the usual student government problems of things not being done.

Fee Raise Continued from Page 1

He said this would cause a severe cut-back in services for the students.

"The CCPB received over \$50,000 this year," he said. "Without an increase they wouldn't get nearly as much, and would have to start programming less expensive programs."

He cited the CCPB Friday Flicks as an example. "They've already run out of expensive films to show," Ragan said. "But without more money they can't move up to movies that cost a little more, so what could they show?"

The proposal will go to the Board of Trustees of Maryland State Colleges and Universities for approval, he said. "I don't expect any problems though since we certainly have sufficient need for an increase."

The proposal is on the agenda for the next meeting of the board of trustees.

If it is approved, it will generate some \$26,000 in extra funds for the SGA. The proposal also includes a \$5 fee per semester for part-time students to pay for SGA supported services they use.

Some Myths About Ms.

A woman's place is in the home.

Homemaking in itself is no longer a fulltime job for most people. Goods and services formerly produced in the home are now commercially available; labor-saving devices have lightened or eliminated much work around the home. Today more than half of all women between 18 and 64 years of age are in the labor force, where they are making a substantial contribution to the growth of the Nation's economy. Studies show that 9 out of 10 girls will work outside the home at some time in their lives.

Women aren't seriously attached to the labor force; they work only for extra pocket money.

Of the 33 million women in the labor force in March 1972, nearly half were

working because of pressing economic need. They were either single, widowed, divorced, or separated or had husbands whose incomes were less than \$3,000 a year. Another 5.1 million had husbands with incomes between \$3,000 and \$7,000—incomes which, by and large, did not meet the criteria established by the Bureau of Labor Statistics for even a low standard of living for an urban family of four.

Women are out ill more than male workers; they cost the company more.

A recent Public Health Service study shows little difference in the absentee rate due to illness or injury: 5.9 days a year for women compared with 5.0 for men.

Letters to the editor

SGA Thank-You Note

Dear Editor:

The Student Government Association Executive Council would like to thank all members of our campus community for their assistance and support throughout our term of office. We believe the 1976-77 academic year has been one of progress for Salisbury State College Student Government Association as we have attempted to recognize and fulfill the needs of a rapidly increasing student population. The SGA has grown and expanded from merely a financial clearing house for activity fees to an organization sensitive to all aspects of campus academia.

For the first time this year students are represented on all college committees by student representatives appointed by the SGA. We now have a voice in decisions directly affecting the college and more importantly our academic destiny. It is difficult to evaluate this year's student government unless you are familiar with past SGA's. It is quite evident that student involvement in the SGA has increased during this year and we hope this trend continues in the future.

We would like to highlight a few of the accomplishments of the SGA during this year that are of considerable benefits to the student body.

Assistance to off-campus students: The purpose of AOCSS is to provide information and act as a referral service to assist students with problems in landlord/tenant relations; what to look for and look out for in an apartment lease; everyday civil matters; and what municipal agencies may be able to help.

Commuter Car Pool: With the commuter population of Salisbury State College growing, the commuter car pool was established to assist commuters in locating other students near their residences in order to form a car pool to Salisbury State College. The city of Salisbury and surrounding areas are divided into group numbers and a student will merely select his residence in the grid and fill out a card and students residing in the same grid will be given a printout of this information. All work on this program is complete and will begin in September.

"N" Grade Survey: With student discontent with the present "N" grade policy increasing the Student Government Association conducted a survey of students and faculty members this past semester. The purpose of this survey was to discover if student discontent was due to a misunderstanding of the system or due to a dislike of the present grading system.

Las Vegas

Dear Editor,

The RHA would like to take this opportunity to thank all the people who helped us out in the Fourth Annual "Las Vegas Night". The event was an extreme success and was enjoyed by all who attended (at least we think so!). The auction unfortunately didn't end til 2 a.m., but because of all the generous merchants in the Salisbury area, we had so many prizes, that it just took all this time to complete the auction.

Dan Gladding
President, RHA

We are presently preparing a final form of this survey and will be presented to college officials before the close of the semester.

Outstanding Faculty Awards: The Student Government Association formed a subcommittee in November whose purpose was to devise a way to nominate outstanding faculty on the SSC campus and select the recipients of the awards. The purpose of the outstanding faculty awards was to show faculty that students recognize and appreciate excellence in the teaching field.

Student Employment Service: The Student Employment Service is an organization designed to help all interested full-time students locate temporary or part-time employment in the campus community. The Student Employment Service also gives information on summer jobs in the Salisbury and Ocean City areas during the Spring semester.

SGA Annual Report: We feel that the lack of student involvement in the SGA can be attributed to a simple lack of understanding of the organization and to alleviate this problem, the SGA is publishing an annual report which will be available during the last week of classes. This report is designed to explain the Student Government Association.

We feel we have made great strides in the improvement of communication between the SGA and its constituents and at the same time realized the true mission of the Student Government Association. Granted the SGA is not perfect and there are many bridges to be crossed, but we would like to believe we have at least laid the cornerstone. We can't help with problems that concern students unless we are aware of them. If there is something you would like to see the SGA do that it hasn't, let us know. It's the only way a change can be made for the better.

Sincerely,
Timothy D. Ragan, President
Jamie Keenan, Vice-President

communication between the academic council and the students," said Fields. Adams was unavailable for comment.

Competing for the 12 positions of campus representative are: Rebecca Bandiere, Tom Simpson, Joe Long, Kathy Main, Marty Huntman, Steve Bock, Curtis Fatig, Susan Peddicord, Mary Oross, Stacia Cochran, Paul Taylor, Alan Ragan, Laura Weber, Norman Montean, Bonnie Downs, and Albert Booth. Competing for the 16 commuter representative positions are: Mike Parks, Mike Seidel, Glenda Van Reenan, Jeff Noble, Kristi Elliott, Patti Boyce Bradley, Brett W. Wilson, Mike Knecht, Mike Hartmann, Bill Martin, Leslie LaMar, Michael Gleason, Steve Codignotto, John Q. Payne, and Tom Bradley.

Safe Scuba Diving

By Bill Bevan

Next semester SSC will for the first time be offering a S.C.U.B.A. diving course.

I am a certified international open water Scuba diver. I was personally trained by Rob Robinson who is a professional diver trained by the U.S. Navy UDT school and Scripps Institution of Oceanography. In 1966 he was awarded the Air Force Master Diver and Diving Medical technician rating. Robinson spent two years as the technical advisor to the commander of the USAF School of Aerospace Medicine on underwater problems, diver's illness, and recompression therapy.

In the words of Robinson "The medical aspects of diving are being badly neglected by most dive instructors today". Because many here at SSC will be taking the Scuba course here at college or at home this summer, I feel I have an obligation as a safe diver to inform you of these medical aspects.

Scuba stands for self-contained underwater breathing apparatus. According to Joe Strykowski, author of the book *Diving For Fun*, no one should ever attempt to use Scuba without following his seven point plan. Point 1. Be in top physical condition; 2. Have good swimming ability; 3. Have experience in skin diving in ocean conditions; 4. Have proper instruction on the theory of Scuba diving; 5. Practice actual dives under experienced supervision; 6. Have good knowledge in the use and care of equipment; 7. The swimmer must be psychologically and physically fit.

I would like to discuss three medical aspects of diving; Nitrogen Narcosis, the Bends and Air Embolism.

Nitrogen Narcosis occurs in three stages and is caused by an excess of Nitrogen in the body. The primary nerve centers are affected in stage one. The effect of this is a mild, pleasant drunkenness. The diver swims in a complete bliss. In stage two, the secondary nerve centers are affected. The diver's inhibitions are released and he may swim off and race a fish. When the diver reaches stage three, his lower nerve centers are affected. The diver is completely relaxed and lapses into total submission... to the point of losing his instinct of self preservation.

To prevent Nitrogen Narcosis, you should start your ascent immediately upon feeling a sensation of pleasant drunkenness. There are no after-effects to Nitrogen Narcosis and recovery is complete.

When talking about the Bends we should start from the surface. At the surface, the body fluids have absorbed an amount of Nitrogen equal to the particle pressure of nitrogen in air at atmospheric pressure. As the diver descends, he breathes air at a pressure equal to the surrounding water. Henry's law, states that as the pressure increases more and more gas (Nitrogen) will be forced into solution in the blood and body fluids. These gases diffuse through the alveoli into the blood and are carried to the body tissues.

As the diver slowly ascends, the pressure drops and the excess nitrogen is returned to the lungs in solution, exchanged and eliminated in the normal respiratory cycle. But when a diver's ascents is too fast these nitrogen bubbles will develop in the bloodstream and tissues. This is called Supersaturation.

The classic comparison of the Bends is to an uncapped bottle of Coke. While capped, carbon dioxide is held in solution in the liquid. Open the cap and the liquid becomes supersaturated and carbon dioxide now bubbles out of solution.

The injury from the bends results from obstruction of the blood circulation by a bubble. A certain amount of tissue deformation or swelling may occur. If pain is present it is not likely to be mild.

If a diver shows these symptoms of the bends it is imperative that he be treated in a recompression chamber, where the diver is recompressed until nitrogen bubbles are taken up in solution in the body tissues and blood.

Air Embolism: If a diver breathing from any source of compressed air underwater holds his breath on ascent, the air trapped in his lungs will expand in proportion to the decreasing pressure. If this expanding air is not exhaled promptly, a pressure differential between the lung air and the water pressure occurs.

Once in the circulatory system these bubbles eventually lodge in the capillaries, forming a blockage. This plug of air prevents the blood from reaching the brain tissue.

The treatment of Air Embolism is immediate prevention. Nitrogen Narcosis, you should start your ascent immediately upon feeling a sensation of pleasant drunkenness. There are no after-effects to Nitrogen Narcosis and recovery is complete.

326 To Graduate At Spring Commencement

By David Amann

Salisbury State College will hold its 54th Commencement Exercises on May 8 at the Wicomico County Youth and Civic Center. The Commencement Exercises will begin at 2 P.M. Graduates are permitted to invite an unlimited number of guests and there is no admission fee.

SSC students will serve in various capacities during the ceremony. The Concert Band will provide the music. Sigma Nu Fraternity members will serve as ushers. Both organizations have participated in past graduations.

Immediately following the commencement there will be a reception for the graduates and their guests in the Civic Center.

Several prominent people have been contacted about speaking at the commencement. According to Joseph K. Gilbert, assistant to the President, a speaker had not been secured as of April 11.

Among those who have received invitations to speak were U.S. Senator Paul Sarbanes, retiring Bowie College President Sam Meyer, and State Commissioner of Higher Education Sheldon Knorr.

The college will graduate 326 students. Forty-eight of the graduates will receive

Masters Degrees. The largest number of graduates come from the Business Department. Fifty-seven students will receive a Bachelor of Science in Business Administration.

The Education Dept. will have 43 graduates. There will be 26 graduates from the Physical Education Dept. 29 students will leave SSC with Psychology degrees.

Twenty-eight Liberal Studies majors

Begin Work On Interior Of SSC's College Center

Work has begun again on the new college center building after a layoff of approximately three months because of contract problems.

College Center Director Dave Ganoe said, "The electricians and the people working on the heating and air conditioning ducts are in there now and they have begun partitioning the building into rooms."

He said until last week no work had been done in the building since Dec. 21, because of a hold-up in processing the contracts and bids through the state of Maryland office of general services.

Ganoe said, "I'm hopeful that it will be ready for us to move into in August or early September." He said that because of past problems with setting a date for completion he was hesitant to pick a date for the building to be finished.

"But I'm sure we'll be in there sometime in the fall," he said.

Ganoe said that construction should move along quickly from this point, barring any unforeseen problems. "The only possible hang-up I see is in getting the generator," he said. "It takes about six months to get one, so it is possible that we could have a finished building in the fall but not be able to move in because it has no electric power."

Ganoe repeated that this is only a possibility and he is still hopeful everything will run smoothly.

"I've told the people in my offices to be ready to move by August 15," he said.

He said it not likely that the college bookstore will be moved in the new building until after the Fall book rush. "In order to have them set up in time we would have to start moving in the beginning of August," Ganoe said. "I don't think we will get in there that quickly."

The games room and the college snack

bar are expected to be among the first areas of the new building put into use. The college carpenters will begin work on the information desk and other finishing touches as soon as the contractor has turned the building over to the school.

The new college center will house Ganoe's office and the CCPB offices as well as a bookstore, snack bar and games area. Movable partitions will be used to define areas in the large multi-purpose area allowing maximum use of the space.

Separate activities can go on at the same time, or the partitions could be cleared away and the large room could accommodate a crowd.

Ganoe said, "Not having a college center has been a terrific inconvenience to the student body, but they've handled it just great. It's much to their credit, in my opinion."

Bookstore Poll Reflects Need

By Joan Stack

SSC students want to see more course related materials in the College Bookstore, according to a survey conducted by the bookstore earlier this semester.

William E. Martin, bookstore supervisor, said, "Because of the survey results, we are going to carry more items like Monarch or Cliff notes, or the Schaum series." He said students showed a desire for course outlines and study guides as well.

The bookstore personnel sent out 303 questionnaires, 78 to campus residents and 165 to off-campus students. Only 52 students responded, Martin said.

"I guess what the survey showed most was that there is a lack of interest on the part of the students about what the bookstore does," Martin said. He said the bookstore will use the comments of the few who did respond to try to improve their service.

A number of people responded that they would like to see the bookstore open for longer hours. Martin said the bookstore has requested another full-time person so that they can expand to evening hours.

"Right now, with the number of staff people we have, it would be impossible," Martin said.

The survey revealed that students would like to see more of everything in the college bookstore. The questionnaire specifically asked about such things as clothing, gift articles, records, paperbacks, photography supplies and teaching aids, and each received at least few positive responses.

Martin said, "When we move into the new college center, we'll have a much larger place. Then we will be able to carry more of what the students want."

ENTERTAINMENT

SSC Spring Formal Presents "The Admirals"

By Jill Clendaniel

Preparations for the SSC Spring Formal, to be held in the Wicomico Youth and Civic Center Saturday, April 30, 1977, 9 p.m. to 1 a.m., are now underway, according to College Center Program Board (CCPB) publicity chairman, Sherrie Pierce.

The theme of the dance is "Midnight Reflection," and the band featured will be "The Admirals". Presently, "The Admirals" are playing an engagement in

Florida, but they have performed regular during the summer at "The Gazebo", in Ocean City. Pierce said a floor show accompanies their performance. This band has received many favorable reviews.

Due to the price of the band, tickets for the Bring Your Own Booze (BYOB) dance will be \$3.00 per couple. These tickets may be purchased at the College Center, by SSC students only, beginning Monday, April 18, 1977.

The attire for the dance will be reasonably flexible. Labeled as a semi-formal

event, acceptable clothing for Spring Formal includes long dresses, jump suits and pant suits for women. Jacket and tie, or a tuxedo for men.

"In the past, it's been left up to the

individual," Pierce said.

She said refreshments such as pretzels, peanuts, and potato chips will be available for the projected 500 couples who are expected to attend.

EIGER SANCTION
APRIL 22, 1977FUNNY GIRL
APRIL 29, 1977

Clint Eastwood stars in *Eiger Sanction* as a part-time assassin for a top secret government agency. He is also a teacher who loves art so he takes assassin jobs when he needs the extra money to invest in art objects.

In *Eiger Sanction* Eastwood's mission is to find a man with a limp who is involved with evil. He is informed that this man is a member of a mountain climbing expedition. Eastwood joins the expedition in order to locate the man.

Funny Girl is the story of Fanny Brice (Barbra Streisand), a homely girl who rises from the ghetto to stardom.

Fanny is married to a gambler, Nicky Arnstein (Omar Sharif). The movie is a musical dealing with the life of Fanny Brice. It involves comedy, love and romance.

"Miss Streisand has matured into a complete performer and delivered the most accomplished original and enjoyable musical-comedy performance that has ever been captured on film," *Newsweek* Joseph Morgenstern.

The Right Courses . . .

By Bobby Pinto

Even though advanced registration for the Fall semester is over, you may still be wondering whether you chose the right courses. Making the selections was probably difficult because the course descriptions were vague in some cases. If you're still uncertain, read on, and you'll find out if you did anything wrong.

Art 215—Ceramics I. That's okay. It's a good class where you can learn to make your own personalized "barf-bowl."

Phys. Ed. 165—Social Dance. Perfect, if you and your date ever want to rhumba at the Sea Gull lounge.

Medical Technology 100. The only trouble here is that is must be taken concurrently with Phys. Ed. 123—Beginning Golf. Class meets at PGH—Pete's Golf House.

Macro and Micro Economic Principles 201 - 202. Forget it. How are you going to pass the course if you don't understand the title?

Spanish. Beautiful, if your life-long ambition is to sell used Chevies in San Diego.

German. All right, if you want to read the German version of "Peanuts" for kicks.

World Civ. Dandy. You can learn how ancient civilizations kept themselves going for thousands of years while presently those places are going down the tubes.

English 490—Topics: Madness and Literature in the Age of Reason. The madness is in the student who takes this course. Surprise!

Social Work 410—Drugs and Alcoholism. No, there's no lab or "learning experience," so calm down.

Sociology 300—Leisure in Society. Likewise no lab, but maybe for a term project you can lie on a couch for seven weeks.

Human Sexuality 100. Again no lab. But if you flunked, would you really care?

There you have in a nutshell (what a choice of words) what's in store for you if you signed up for any of these courses.

There were a few classes we would have liked to have seen. You know, things like co-ed wrestling or history of expletives. But you can't expect everything you want, especially in college. But hang in there anyway. The college will straighten you out yet!

The first annual "goof-off" day will be held on April 27 (rain date April 28), at 4 p.m. The festivities will take place on the Allenwood Property. Some of the activities will be boffing, water slide, stand-off, earthball, knots, people pass, dho-dho, and orbit.

Planning "goof-off" day are Jack

Stovall, instructor of physical education, Ed Delaney, chairman of the psychology department, Keith Conners, instructor of physical education, and Grady Armstrong, director of intramurals. "Goof-off" day is not just for the super-jocks or for the people in the athletic department, but for all students, faculty, administration and staff," said Armstrong.

Scuba Diving Continued from Page 3

mediate recompression to force the air bubbles back to solution and if massive brain tissue deterioration has not taken place, then the victim stands a good chance of recovering.

In conclusion I hope I've given you a better understanding of three medical aspects of diving. Nitrogen Narcosis, Bends and Air Embolism are not the only dangers of diving, but they are the most forgotten.

For me diving is fun, since I put safety first, because its my life that I could lose.

WSSC Calls For Help For Next Semester

As with most of the other campus service organizations, WSSC is preparing to wind up operations for the semester. The newly-elected Board of Directors is making plans for summer broadcasting from 6 p.m. until 1 a.m. seven days a week. The elections, held April 14, were indica-

tive of the current trend in elections at SSC. The four officers of this year's Board ran unopposed as incumbents and three new staff representatives, Steve Bock, Marty Huntman, and Mike Seidel also ran unopposed. The new (old) officers of the station are still Joe Norton as station

manager, Tom DeKnight, the business-of-fice manager, Tom Bradley as the program director, and the public relations director is Mike Hartmann. Dennis Dehart and Jay Young, members of WSSC's program board, are the only graduating seniors on the Board.

In an effort to begin recruiting processes earlier than in previous years, WSSC will hold an Open-House in room 326 Holloway Hall from 5:30 until 8 p.m. this evening. All students who think they might be interested in working with SSC's campus radio station are invited to attend. There are many positions to be filled for this summer as well as for the coming academic year. Some of the areas that will need more personnel are the news staff, music department, and office management plus the usual openings for disc jockies and engineers.

"The DJ's are important because they are the on-the-air operation but they are nothing without a competent engineer and staff behind them," said Norton. "Next year's graduation will really empty the station so now is the perfect time to get in on the action before the operational staff leaves." Norton, along with Vernon Bradley, are the only two station members who have been with WSSC since the station began broadcasting in the fall of 1973. Since then, the size of the staff has slowly dwindled to its current 33 member level.

"WSSC is in the market for people who want to make the station the service and entertainment source for the students that it can be," Norton said. If you think WSSC might be for you, stop by their office in Holloway Hall this evening or at their studio in Manokin Hall for more information about the station.

around campus

Statistically Speaking

Churchill Eisenhart, Senior Research Fellow, Institute for Basic Standards, will lecture here today at 4 p.m. in Devilbiss Science Hall, Room 226.

Eisenhart's talk is sponsored by the American Statistical Societies, as part of a nationwide Visiting Lecturer Program designed for schools without a graduate program in statistics.

His research interests are measurement and calibration and history of science.

ZTA Week

This is Zeta Week. The women of Zeta Tau Alpha will sponsor a Coffee House tomorrow in the dining hall from 9 p.m.-12 M. Music will be provided by WSSC. Admission is \$1 at the door and beer is five for \$1 or \$.25 each.

Among other Zeta Week activities to be held this week are a fashion show for senior high school girls to acquaint them with the fraternity and a parent's day luncheon.

"Harrad Experiment"

The Resident Hall Association will present the film "The Harrad Experiment" on Sunday, April 24, in Holloway Hall Auditorium. Tickets will go on sale at 6:30 p.m. for the 7:00 showing and 9:30 p.m. for the 10:00 showing. Admission is \$0.25.

The Harrad Experiment is about Harrad College, where free, liberated relations between co-ed students are encouraged," said Dave Bollinger, vice-president of the RHA. The liberated "Harrad Experiment" punctuates the new era of sexual communication. Students in the "Harrad Experiment" explore the metaphysical, the physical and the psychological to get to know more fully deeper meaning of a relationship.

The full-length feature film is open to all students faculty, staff, administration, and their families.

Editor Wanted

The Yearbook office is accepting applications for the position of Editor-in-Chief for the 1977-78 academic year. Applicants should have at least one year's experience in yearbook work. All persons interested in the position should come to the Yearbook office in Holloway Hall, room 213, for further information about the job and an application blank.

Last Call For Registers

For all the new students on campus who have yet to pick up their 1976 Freshman Register we will make one final attempt to deliver them to you. In the next few days new students will receive a letter along with all the other students who purchased one of the registers. Return the form checked if you did or did not receive your copy. Include your present address, and the RHA will either deliver personally, or mail yours to you. Leftover copies will be put on sale at 40% off the original price.

RHA Elections

The Residence Hall Association will hold elections for its executive council for the 1977-78 year today and tomorrow. Offices open are president, vice-president, secretary, and treasurer. It is strongly recommended that the nominees for the offices be sophomores or juniors at the time of election, however, there were no restrictions on the nominations. Elections will be held in the dorms at the Central Desk or mail box areas. Voting times are 10 a.m. to 5 p.m. On Thursday (tomorrow), voting will take place in Holloway Hall Lobby for all the people who have not voted. The Residence Hall Association represents all resident students.

Sports Medicine Seminar Here

A one-day Sports Medicine Seminar will be conducted here May 28 for coaches, physical education teachers, college and high school students. It may be taken as a one-credit mini-semester course with outside research, or simply as a seminar.

Many of the top athletic injury experts

Last year many college and high school students, as well as physical education teachers and coaches, attended the Sports Medicine Seminar.

in the Maryland-Delaware area will be here for the seminar.

SSC Head Trainer Hunter Smith is coordinating the course which is designed to introduce new ideas and knowledge in the prevention, care and rehabilitation of athletic injuries. It will include instruction in various taping methods as well as practical lab work in taping athletic injuries.

Smith said, "This course will be beneficial to anyone who is interested in coaching, not just physical education majors but people who may coach a youth league some day as well."

Registration fee for the seminar is \$5 for students and \$10 for all others. If the course is taken for credit, the registrant must also pay by the semester hour. Registration is through the office of continuing education. If the course is not taken for credit, a certificate of attendance will be awarded.

"The seminar is scheduled for the Saturday of Memorial Day weekend," Smith said, "so people can come down to Salisbury, stay in the dorms for a nominal fee and go down to the ocean afterward."

The dorm rooms will rent for \$5 per night and can be reserved through the director of housing.

Among those scheduled to speak are William Neill, Kernan's Children's Hospital and consultant to the Baltimore Colts and Spyder Fry, head trainer at the University of Maryland, College Park.

The deadline for registration for the seminar is May 9.

SPORTS

Lacrosse Team Meshes & Hopes For Future

By Randy Barnhart

Lacrosse at Salisbury has always been considered top notch and this year's team is no exception. Coach Andy Jones' squad has made an abrupt turnaround on the field. No longer plagued by injuries and poor weather, the whole team is giving 100 percent. Presently the team is posting a record of 6 - 4.

April 5, SSC trekked to St. Mary's as the favorites to win the match. But due to harassment from the fans, Salisbury lost in sudden-death overtime, 13 - 12.

Coach Jones commented afterwards: "We lost our poise."

The Gulls truly have a better team than St. Mary's but the fans made the difference. One of the main victims of the abuse was Goalie Dave Hearn. Undaunted, Hearn had 23 saves for the day. Leading the scoring attack was Dave Cottle with three goals and two assists. Also scoring three goals was the pride of Perry Hall, Marc Hoffman.

Attackman Stewart Moan slashed the nets with two goals. 6'2" Russell Bell added his scoring punch with one goal

and one assist. Others scoring one goal apiece were Wayne Gorrow, Lewis Scharff and Bob Rohde.

Most teams would let such a game discourage them, but SSC used it as a personal vendetta. Since then the Gulls have won four in a row.

Following the loss to St. Mary's, SSC hosted Vermont. The Gulls played with inspiration and defeated Vermont, 22 - 5. Rohde, using the skills he learned at East Meadow, N.Y., tallied six goals against Vermont. Right behind him with five goals and seven assists was Cottle.

Playing goal for SSC was Cliff Bock. While in the goal, Bock snatched 13 shots from Vermont. Also seeing action in the goal was freshman Mike "Abdul" Sparr. The John Carroll graduate had four saves.

Next on the schedule, SSC was the guest of the University of Delaware. Playing in the heart of Newark, the Gulls plucked the favored Blue Hens. Delaware

Climbing down from the mountains, Frostburg State played on the flat plains of SSC. The Gulls had a field day as they plowed through the Frostburg defense. The entire SSC bench saw action that day and many new names made the scoring column.

Sophomore Jake Janney scored three goals and was rewarded with the traditional game ball. Also receiving a game ball was Stewart Moan with his two goals and four assists. With 1:13 remaining in the third period, Woodie Collins unleashed a goal. Assisting Collins on the goal was number 41, Bill Bauer.

The king of Queen Annes High School, Jimmy Judge, pierced the nets with 5:25 remaining in the contest. Judge, a freshman, has regularly been seeing action and has raised quite a few eyebrows. 6' Dave Bateman turned down two definite scoring opportunities to assist his teammates, Rohde and Janney. Bateman, only a

Russell Bell, number 22, looks on as Dave Cottle fakes high but delivers low. Cottle went on to score a total of five goals as SSC defeated Mt. St. Mary's, 20 - 7. (Photo by Baker)

scored within the opening minute but Salisbury retaliated. SSC whitewashed Delaware and with it their 15th ranking. The Gulls boosted their score to 11 before the Hens had even scored their second goal. SSC continued to outthrust Delaware and went on to win, 18 - 11. Back in the goal for Salisbury was Hearn with an impressive 26 saves.

Scoring Summary—SSC vs. Delaware		
Player	Goals	Assists
Dave Cottle	4	3
Lewis Scharff	3	-
Mark Roskam	3	-
Stewart Moan	2	2
Marc Hoffman	2	3
Russell Bell	2	-
Bob Rohde	2	-
Wayne Gorrow	-	1

freshman, will fill a void in the SSC mid-field in years to come. Hearn played flawlessly in the crease and had 20 saves. Bock also played and snagged two shots. Salisbury handily defeated Frostburg, 23 - 6.

Salisbury continued their torrid pace as they hosted Mt. St. Mary's the very next day. The Mount proved no contest for the hot Gulls as SSC won, 20 - 7. Once again, many new faces hit the field for Salisbury. Freshman Dave Dougherty marched on the field and narrowly missed scoring a goal. Dougherty is a product of the lacrosse power of Howard High School.

Hearn watched from the sidelines as his teammate Bock staved off 11 shots. Bock left the goal early in the fourth period and received a well-deserved hand. Replacing him was Sparr with a total of six saves.

All-American Dave Cottle had five goals and three assists. Rohde had a good day when he added three goals for Salisbury's benefit.

Scoring Summary—SSC vs. Mt. St. Mary's		
Player	Goals	Assists
Dave Cottle	5	3
Bob Rohde	3	-
Mark Roskam	2	2
Russell Bell	2	1
Marc Hoffman	2	-

Baseball Team Has Best Season Yet At Plate

Salisbury State's baseball team is now more than halfway through its 43 game schedule, and the Sea Gulls are well on their way to their best season ever.

"I'm pleased with our season thus far," noted Coach Deane Deshon. "We have not hit the ball as well as we could, but everyone is coming on strong now. Our pitching has improved as the season has progressed, and our defense has done an outstanding job."

After 20 games, junior center Jesse

Plummer leads the team at the plate. The Catonsville, Md., native is hitting at a .403 clip as the leadoff batter for the Gulls. He has 19 walks.

All-American candidate Robin Knight, last year's leading hitter, is batting .328 after 20 games. The junior shortstop from Camden, Del., has 16 RBIs, five doubles, two homeruns and 16 walks.

Junior Pat Lamboni from Baltimore, is hitting at a .321 clip. The second baseman is a transfer from Catonsville CC. Junior

Bryan Perry has 11 doubles and 15 RBIs as he closes in on the .300 mark. From Forestville, Md., Perry catches or plays right field. He is batting .286.

Sophomore third baseman Dave Funk from Street, Md., leads the team in walks with 21, as he has a .279 batting average. Sophomore first baseman Brian Spiering from Greensboro, Md., is batting .261, including 12 RBIs, two doubles, one triple and one homerun.

Senior Joe Frisbee has been bringing his average up with each game since a slow start. The only senior on the team, the Athens, N.Y., native is batting .243 after 20 games with 16 RBIs, four doubles and

two homeruns. Last year's second leading batter, he is the designated hitter or playing in left field this season.

As a team, Salisbury is batting at a .273 clip with 100 RBIs, 36 doubles, six triples and seven homeruns.

Junior Brian Brushe from Baltimore is the leading pitcher this season. The 6'2" right-hander has a 5-1 record to go with his 2.25 earned run average (ERA). Sophomore Wyatt Kerley from Delmar, Del., is 3-1 with a 2.72 ERA. And junior Doug Harvey from Upper Marlboro, Md., is 4-1 with a 4.83 ERA. Overall, the pitching staff's ERA is 3.11.

The team is fielding at a .970 rate.

Carl Urian demonstrates the proper forehand technique while practicing for an upcoming match. Urian is just one of many reasons why SSC is king of the courts. (Staff photo by Baker)

SSC Golfers Scorch Links

The conclusion of the Masters Golf Championship was not even 24 hours past when a group of Salisbury State athletes took to the links to emulate Tom Watson's and Jack Nicklaus' feats on the golf course.

Monday, April 11, the Sea Gull squad traveled to the Hunt Valley Country Club outside Baltimore to make up a Mason-Dixon golf match with Loyola. The Greyhounds had a match already scheduled with Johns Hopkins and UMBC, so the meet ended up as a quadrangular.

With the weather a balmy 80 degrees, Salisbury had its hottest day ever on the links, setting two team records. One record that fell was for the lowest score ever shot in competition by a Gull player.

Freshman Charley Hall from Camp Springs, Md. set the individual record when he fired a 35-36-71 one-under par over the 6600 yard Hunt Valley course. The graduate of Crossland High was five shots lower than his season opening 76, and one shot better than senior Chuck Will's SSC record 72.

Sophomore George Jarboe had one of his best rounds of the season, firing a one-over par 73. The Mechanicsville, Md. native shot a 36 on the front nine and a 37 over the back nine. He is a graduate of Ryken High.

Hall and Jarboe were two of the five men who helped Salisbury shatter a team scoring mark. The Gulls had never broken 400 in a match. The team had a 403 in one match and a 402 in its last outing against York College and Trenton State.

Monday, the linksmen shot a five-man total of 381 to break 400 by 19 strokes. "We had a super day," exclaimed a happy Coach Gretchen Byrd after the match. "Everyone put it together today and they all played well. I was waiting for us to break 400, but even I didn't think we would get the score down as low as we did."

All five Salisbury scorers shot under 80 for the day. Senior Chuck Will from Brunswick, Md., sophomore Dave Neyers from Northfield, N.J. and freshman Joe LeFavor from Camden, Del. all fired 79's. For everyone but Will, it was their best round of the season. Will, who has been top man for Salisbury in three meets this season, has fired a 73 earlier this year.

Senior Paula Wagasky from Odenton, Md. fired her consistent low 80's round, only to have her score thrown out. Her best round of the season 81 was not good enough to make the top five for one of the few times in her Salisbury career.

Salisbury is 8 - 2 thus far in 1977, already scoring more wins than in 1976. The team has a .3, .2, mark in the Mason-Dixon Conference.

Summer With Us In '77

at Prince George's

Community College's

Summer Session I & II

Summer Session Offers You:

- A choice of an early or midsummer session, or both;
- Full semester courses in 5 week periods;
- Classes at both the Largo campus and Andrews AFB;
- Courses in nearly every subject matter;
- Low tuition costs-only \$13 per credit hour for Prince George's County Residents.

Summer Session Reminders:

1. summer session I

Registration—May 17 (Andrews AFB),
from 3-7 p.m.

—May 19 (Largo campus),
from 4-8 p.m.

Classes Begin—May 23

2. summer session II

Registration—June 28 (Andrews AFB),
from 3-7 p.m.

—June 29 (Largo campus),
from 4-8 p.m.

Classes Begin—July 5

For further information and a free schedule of classes, call the Summer Session Hotline: 336-6000, ext. 307

Prince George's Community College also offers Fall & Spring Sessions, off-campus Extension & Degree Centers, Telecredit Courses, Week-end College, and more!
For information on these & other programs, call:

336-6000, ext. 397

Prince George's Community College
301 Largo Rd., Largo, Md. 20870

Book Thefts Increase

The number of book thefts on campus will escalate in these last weeks of the semester, according to William E. Martin, bookstore supervisor.

"As it gets closer to buy-back days, book will start disappearing from bookshelves and tables," Martin said. The bookstore has already received some complaints about stolen books.

"As usual, most of the books won't be marked with the student's name," Martin said, "so even if they are sold back to us, we can't prove they were stolen."

In order to avoid this, Martin advised students to clearly mark their name in their textbooks on either the spine, the page ends or a particular page. He said most thieves are unwilling to take a book that is easily identifiable and marking a book won't affect the student's ability to sell it.

"We buy back anything that is in decent condition and is being used next semester," he said.

He said the bookstore will use a tighter system during buy-back to prevent people from selling back stolen books.

In order to sell a book a student will have to identify himself and sign his name," Martin said. "The book will be numbered

so that if someone reports his book is stolen and finds it here, we can easily find out who sold it to us." He said the bookstore expects this to cut down on stolen books somewhat.

"But the best protection is still to make sure your name is marked some place easily visible," he said.

The bookstore has asked book company come in to buy books that are not being used at SSC next semester. "They give the best price they can but they're in business to make a profit," Martin said. He said that according to his survey no other used book company gives better prices.

"But if a student isn't satisfied with the quoted price, he just shouldn't sell it," he said.

Books that are being used here next semester will be bought by the college bookstore to be sold as used books in the Fall.

"We give 50% of the regular price for anything in decent condition," he said. The bookstore will also buy back paperback books starting this semester if their original price was at least \$4.

Faculty buy-back day is scheduled for Tuesday, May 3, and student buy-back days will be Wednesday through Friday, May 4-6.

Appoint Knowles Director Of Liberal Studies Dept.

By Dave Amann

Modern Language department chairman John K. Knowles will step down from his post at the end of this semester and into the job of Director of Liberal Studies. The liberal studies major has come under fire from many faculty members recently who feel that "majors with out a department" are given no direction by the college.

Knowles hopes to solve this problem by helping liberal studies majors to plan their curriculums according to their own interests.

William E. Palmer, associate professor of spanish, will succeed Knowles as chairman of the Modern Language department.

Knowles said that he was taking the new position in order to help the four hundred Liberal Studies majors at SSC discover what resources are available to them through the college. One of his major responsibilities will be to "try to assess the needs of these students who have no direct faculty support because they are not enrolled in a traditional curriculum," he said.

According to Knowles, the Liberal Studies program is the vehicle through which a student can construct a diversified course of study to meet his career needs or his personal interests. "This is a special opportunity to build programs based on student needs and wants," Knowles said.

He feels that many students with diversified interests are shortchanged because they are forced into one of the traditional programs. Knowles believes there should be some alternative route

which these students could follow.

He hopes to develop the Liberal Studies program to the point where students can receive the support which they would receive from one of the traditional departments and at the same time have the freedom of choice which the Liberal Studies program can afford.

Knowles will be primarily a co-ordinator. It will be his job to help Liberal Studies majors obtain advice from the appropriate faculty members. He will also be available to present alternatives in courses of study to students.

Lacrosse

Continued from Page 10

opponents and with the support from the whole team, "We'll continue to roll!" says Coach Jones.

While playing Mt. St. Mary's, three minutes remained in the game and Salisbury got headstrong. Coach Jones switched the defensemen to the scoring line and moved his attackmen to the defense. This rather humiliated Mt. St. Mary's and didn't do much for Salisbury's reputation.

Many players could have been injured during this grandstand act. An opposing team could have gotten angered and tried to injure a Salisbury player. Salisbury's play-off bid rides on the upcoming match against the University of Baltimore. Had a player been injured during that display, Salisbury could have kissed all hopes of play-offs good bye! That type of show should be saved for the circus and not the lacrosse field.

Pocomoke Hall Residents:

Thank you for letting me be your R.A. this year

**Good Luck,
Chris Kelleher**
